

What does Leadership at Fraser Health mean to you?

Accountability & engagement

Together, we create great workplaces

Position Title:	Manager, Population Health Observatory	Location:	Central City, Surrey, BC
Competition Number:	114223 (click to apply)	Employment Status	Regular, Full-Time

We strive to create an environment where you enjoy the work you do, the place where you work, and the people around you. From the financial advisor managing our health care resources, to the IT professional enabling life-saving data, to the nurse and physician on the front line of patient care, everyone plays a role in the care continuum. Together, we create great workplaces.

Position Highlights

Bring your extensive knowledge of population and public health data and their application to an exciting role, managing the services and resources of the Population Health Observatory.

As a key member of the Population and Public Health team, you will provide leadership and coordination in the collection, analysis, and interpretation of health data to support the planning, implementation and evaluation of Public Health programs and services across Fraser Health.

- Hold accountability for high quality data collection, data analysis, program evaluation, health assessment and disease surveillance, performance monitoring and indicator development, research, and knowledge dissemination.
- Monitor and track the health status of the population and inform Public Health leadership of changes in the health of the population that require immediate and appropriate public health intervention.
- Foster innovation in the collection, analysis, and dissemination of population health data for the purposes of generating more timely and relevant insights for senior leaders.
- Work collaboratively with internal and external stakeholders in support of the mission, philosophies and goals of Fraser Health.

As the successful candidate you have a Master's degree in Epidemiology, Evaluation Sciences or a related field and seven years' recent, related experience within a large complex organization, including two years' recent, related management/supervisory experience in epidemiology or evaluation.

Valued Benefits

A career at Fraser Health will offer you the opportunity to work in a fast growing and exciting organization with professionals who are eminent in their respective fields. We offer a competitive compensation package, including comprehensive health benefits coverage.
